HG-BDC-800

DC brushless sliding gate motor

Specification

- Motor : DC BRUSHLESS MOTOR
- Input power : 220V+-
- Motor voltage : 24VDC
- Motor power : 120W
- Output speed : 50e/min
- Running speed : 12m/min
- Max gate weight : 800 kg
- Normal environment : -30°C~60°C
- Relative humidity : ≤90%
- Remote Range : ≥30m

Features

- Built - in controller, no complex wiring for installation, just connect to power；
- In case of power failure, the gate can be opened and closed manually after release clutch；
- Stable operation, soft start/stop, accurate limit；
- Can be connected to wall switch, infrared protector, warning light externally；
- Optional auto- close function.
- A Photocell can be connected for safety
- Manual Switch for Operation (Open/Stop/Close)
- Loop Detector & Access Controller for Automation (Optional)
- On operating a visual LED flashlight is provided
